

Invitation to the conference

Restoration of Lake Fure

- a nutrient-rich lake near Copenhagen

May 22-23, 2006

PROGRAM

MONDAY 22nd MAY

9.00 - 10.00

Arrival, registration and coffee/tea/bread

10.00 - 10.15

Introduction

Philip Heimbürger

Chairman of Technical & Environmental Committee,
Frederiksborg County

10.15 - 10.45

Lake Fure's history during 100 years

Kaj Sand-Jensen

Full professor Freshwater Biological Laboratory,
University of Copenhagen

10.45 - 12.00

EU-LIFE project in Lake Fure

Background for the restoration, regulation of
fish stock, oxygenation and monitoring.

Ida Dahl-Nielsen, Peer Skaarup,
Inge Grevy and Peter B. Jørgensen,

Staff members, Frederiksborg County

12.00 - 13.00

Lunch

13.00 - 13.20

Information and public participation

Peter Fabricius,

Staff member, Frederiksborg County

13.20 - 13.40

Lake restoration in Denmark

Martin Søndergaard

Senior researcher, National Environmental Research Institute

13.40 - 14.00

EU-Life projects

Camilla Strandberg-Panelius

Monitoring expert, Astrale GEIE

Contracted by the EU Commission

14.00 - 15.00

Poster session

15.00 - 17.00

Lake Fure by boat

Coffee/tea/cake

18.30

Dinner

20.00

Kayaking at Lake Fure and in Greenland

Storytelling by John Andersen

Polar explorer and architect

PROGRAM

TUESDAY 23rd MAY

8.00 - 9.00

Breakfast

9.00 - 9.20

Plankton

Inge Grevy, Staff member, Frederiksborg County

9.20 - 9.50

Fish

Jens Peter Müller

Senior advisor, Laboratory of Fish ecology

Christian Hvidt

M. Sc. Marine and Freshwater Biology, Bio/consult

9.50 - 10.20

Discussion

10.20 - 11.00

Poster session

Coffee break

11.00 - 11.20

Plants

Kaj Sand-Jensen, Full professor,

Freshwater Biological Laboratory, University of Copenhagen

Bjarne Moeslund, M. Sc. Biology

11.20 - 11.40

Bottom fauna

Klaus Peter Brodersen

Associate professor, Freshwater Biological Laboratory,
University of Copenhagen

11.40 - 12.00

Diskussion

12.00 - 13.00

Lunch

13.00 - 13.20

Phosphorus loading of Lake Fure

Morten Jepsen, Staff member, Frederiksborg County

13.20 - 13.40

Sediment

Lars Kamp Nielsen

Associate profesor, Ph.D, Freshwater Biological Laboratory,
University of Copenhagen

13.40 - 14.00

River Basin Management

Ivan Ben Karottki

M.Sc. Biology, Danish Forest and Nature Agency

14.00 - 15.00

Discussion and conclusion

Restoration of Lake Fure

Frederiksborg County hereby invites you to the conference about the LIFE-project Restoration of Lake Fure.

In order to achieve satisfactory life conditions for the flora and fauna in Lake Fure, a LIFE-Nature project was started in the spring of 2003. The two main components are fish removal and oxygenation of bottom water in the lake. After the LIFE-project ends in 2007, the lake will be maintained with oxygenation.

For more information about the project please see www.furesoeprojekt.dk.

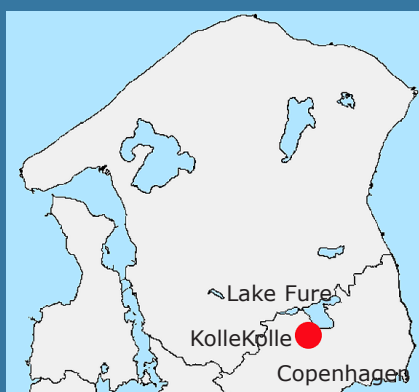

Purpose

The purpose of the Conference is to disseminate experience from the restoration project and to contribute to networking on lake restoration and Nature 2000 issues. Lake Fure is one of the best examined lakes in the world and there are a lot of data showing the development during the last 100 years. The conference will provide a good forum for discussing how the lake reacts to the restoration. The conference is planned together with Professor Kaj Sand-Jensen, Freshwater Biological Laboratory.

Who

The conference will be of interest to researchers, administrators at the regional, national and international level, NGO's and politicians. The conference language will be English if needed.

Venue and registration

The conference will be held at:
KolleKolle, Hotel and conference center,
Frederiksborgvej 105, DK 3500 Værløse.
Tlf: +45 44 98 42 22. www.kollekolle.dk

The conference fee of 2,000 Dkr (270 •) covers full accommodation, meals and conference participation. A reduced fee is available for partial participation and for students. You can register directly on our website or use the attached form. Poster contributions are appreciated.

Please register before March 20th.
